THE EARLIER THE BETTER

The Maryland Infants and Toddlers Program provides family-centered support by:

- Building on your child's and family's strengths;
- Providing choices to meet your family's priorities and concerns;
- Supporting you to know your rights, communicate effectively about your child, and to help your child develop and learn.

The Maryland Infants and Toddlers Program is not a medical program that "treats" children. While they may not be trained specialists, families and caregivers are a child's most important teachers. The early intervention team will partner with you by using a coaching model to design and implement individualized strategies within your child's daily routines and activities.

The outcomes for all children participating in the Maryland Infants and Toddlers Program are to:

- Develop positive social-emotional skills and relationships;
- Acquire and use knowledge and skills; and
- Use appropriate behaviors to meet their needs.
