

# Pom Pom Leaf Art

Thank you for downloading this FREE resource at ChildCareEd! This art activity is a fun way for children to practice hand-eye coordination and fine-motor skills.

For this activity, you will need the following materials:

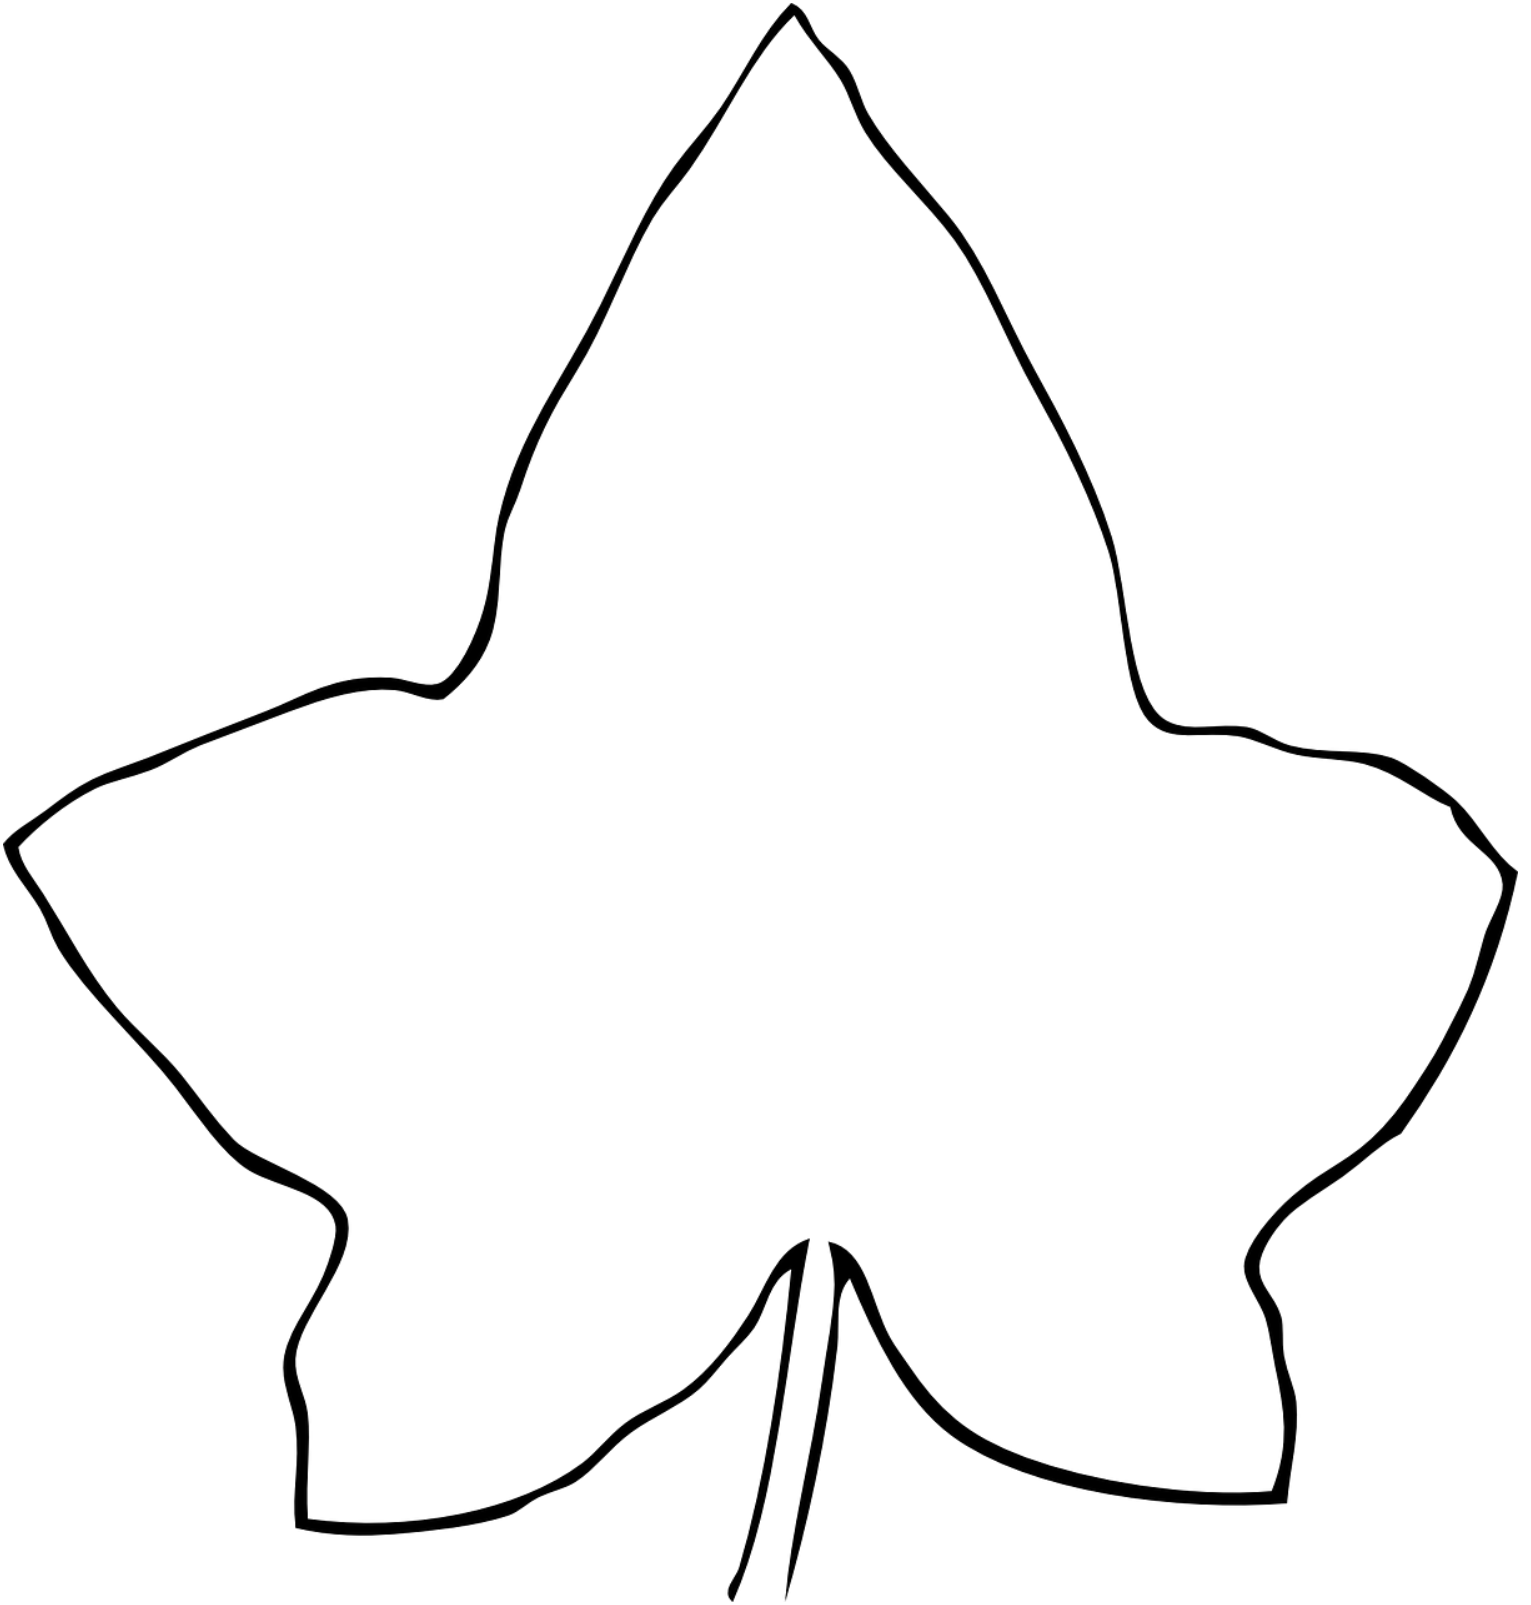

- Pom poms (on the larger side)
- Clothespins
- Paint (yellow, orange, red, brown)
- Googly eyes
- Glitter (optional)
- Leaf pattern

Direct children to use the pom poms with their fingers and their thumb to paint their leaves. They can decorate by sprinkling glitter on the still-wet paint. When dry, children can cut out the leaves with scissors or leave them. A suggestion: hang them up on the ceiling as a decoration!
