Hot Chocolate Counting

Thank you for downloading this FREE resource at ChildCareEd! This activity can be printed out in black/white.

Materials:

- Hot Chocolate Activity (printed and laminated)
- Marshmallow and chocolate squares (printed and laminated)
- Brown construction squares
- White cotton balls
- Dry-erase boards, markers, and erasers (optional)

Directions:

- Shuffle chocolate and marshmallow squares so that the numbers are mixed. Children will choose a card from each pile and then count out the number of corresponding “chocolate squares” and “marshmallows.” They will place the cotton balls and brown squares on the hot chocolate mug. They will record their findings by writing the number on their dry-erase boards.

Extension: Challenge children by asking them how many squares and marshmallows they have in total.

Celebrate with this engaging winter-themed sorting game!
