

Grow Up Healthy!

It is recommended that children go to their own health care provider for their well-child visits at the milestone ages listed. These well-child visits provide important services like tracking your child's growth and development; vaccinations; and the opportunity to ask questions and/or share concerns about your child's physical, mental, and social health.

5 years

Follows rules or takes turns when playing games with other children
Writes some letters in their name
Counts to 10

Uses or recognizes simple rhymes (bat-cat, ball-tall)

4 years

Likes to be a "helper"
Pretends to be something else during play (teacher, superhero, dog)
Talks about at least one thing that happened during their day, like "I played soccer."

Unbuttons some buttons

3 years

Notices other children and joins them to play
Talks well enough for others to understand, most of the time
Draws a circle, when you show them how
Puts on some clothes by themselves, like loose pants or a jacket

30 months

Says about 50 words
Names things in a book when you point and ask, "What is this?"
Follows two-step instructions like "Put the toy down and close the door."
Jumps off the ground with both feet

2 years

Runs
Looks at your face to see how to react in a new situation
Says at least two words together, like "More milk."
Tries to use switches, knobs, or buttons

18 months

Scribbles
Points to show you something interesting
Copies you doing chores, like sweeping with a broom
Looks at a few pages in a book with you

12 months

Calls a parent "mama" or "dada"
Waves "bye-bye"
Puts something in a container, like a block in a cup
Pulls up to stand

9 months

Looks when you call their name
Makes different sounds like "mamamama" and "babababa"
Lifts arms up to be picked up
Sits without support

6 months

Laughs
Takes turns making sounds with you
Reaches to grab a toy they want
Rolls from tummy to back

4 months

Makes sounds like "oooo", "aahh"
Looks at you, moves, or makes sounds to get or keep your attention
Holds a toy when you put it in their hand
Pushes up onto elbows/forearms when on tummy

2 months

Calms down if spoken to or picked up
Smiles when you talk to or smile at them
Makes sounds other than crying
Opens hands briefly

What vaccinations have I reached?

These developmental milestones show what most children (75% or more) can do by each age. Download CDC's free Milestone Tracker App to see a full list of milestones and complete a checklist for your child's age.

4-5 years

18-23 months

Vaccines Needed

Influenza (Flu)

Hepatitis A (Hep A)

6 months

Vaccines Needed

Hepatitis B (Hep B)

Rotavirus (RV)

if brand indicated

¡Crecer sano!

Se recomienda que los niños vayan a su propio proveedor de atención médica para los chequeos de rutina a las edades de seguimiento de los indicadores señaladas. Estas visitas de rutina proporcionan servicios importantes, como el monitoreo del crecimiento y desarrollo de su hijo; vacunaciones; y la oportunidad de hacer preguntas o compartir preocupaciones acerca de la salud física, mental y social de su hijo.

4-5 años

Vacunas necesarias

- La difteria, el tétanos y la tosferina (DTaP)
- La poliomielitis (IPV)
- Influenza o gripe anual
- El sarampión, las paperas y la rubéola (MMR)
- La varicela (Var)

2-3 años

Vacunas necesarias

- Influenza o gripe anual

18-23 meses

Vacunas necesarias

- Influenza o gripe
- La hepatitis A (Hep A)

12-15 meses

Vacunas necesarias

- La difteria, el tétanos y la tosferina (DTaP)
- La Haemophilus influenzae tipo b (Hib)
- La enfermedad neumocócica (PCV)
- La poliomielitis (IPV)
- Influenza o gripe
- El rotavirus (RV) si lo indica la marca

6 meses

Vacunas necesarias

- La hepatitis B (Hep B)
- El rotavirus (RV)
- La difteria, el tétanos y la tosferina (DTaP)
- La Haemophilus influenzae tipo b (Hib)
